

The ANY-maze USB hub

Overview

The ANY-maze 4-port USB 2.0 hub is ideal for connecting multiple USB cameras or ANY-maze interfaces to a PC running ANY-maze. The hub can run from USB power, but includes an external universal-voltage (100V - 240V) DC power supply, which is required when

connecting multiple power-hungry devices such as USB cameras.

Details

- 4 USB 2.0 ports (USB 1.1 compatible)
- Supplied with external DC power supply
- Supplied with 4-ft. USB A/Mini-B (male) cable for connection to the PC.
